

AMENDED IN SENATE JANUARY 4, 2006

SENATE BILL

No. 560

Introduced by Senator Migden

February 18, 2005

~~An act to amend Section 53395.17 of the Government Code, relating to infrastructure financing. An act relating to career technical education.~~

LEGISLATIVE COUNSEL'S DIGEST

SB 560, as amended, Migden. ~~Local infrastructure financing plans.~~
Career technical education: school district reporting.

Existing law requires school districts to adopt a course of study for grades 7 to 12, inclusive, that includes, among other things, career technical education.

This bill would require a school district offering grades 9 to 12, inclusive, to file a written report with the Legislature by January 1, 2008, as to whether the school district discontinued any career technical education courses or closed any career technical education facilities during the 2002-03, 2003-04, 2004-05, or 2005-06 school years, thereby creating a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

~~Existing law requires the legislative body of a local agency to conduct a public hearing prior to adopting a proposed infrastructure~~

~~financing plan, which shall be called no sooner than 60 days after the plan has been sent to each affected taxing entity.~~

~~This bill instead would require that the public hearing shall be called no sooner than 45 days after the plan has been sent to the affected taxing agencies.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~ yes.
State-mandated local program: ~~no~~ yes.
